A Smile

*A smile is simple, easy, meaningful and pleasant,
To have a smile is so very present.
A greeting with a friendly face,
To help us keep up in this worldly race.*

*A smile can be big or little,
Dry or with a spittle.
A smile can be full or half,
Just for your behalf.*

*A smile is a gift from our Creator,
It is to be used with love from the Originator.
One, two, three or four teeth seen,
It is with love which guides the mouth's seam.*

*With an open or a closed mouth,
A smile should never head south.
For the smile is used as love,
With all the samples above.*

*A smile can be full of ivory,
Or it can be visible with no delivery.
A smile can have a false set of teeth called dentures,
Or it can be toothless with no protruders.*

*A snagged tooth smile is a delight,
For it brings out Jesus' Light.
For a smile with a snag,
Proves love is not just brag.*

*For the creation of our Father,
To put smiles with no collars,
To the lips and mouths of His children,
Is for love with no condition.*

*O the love from beautiful smiles,
Will make man walk many, many miles.
One will have the joy of life's gift,
When the heart of love has no rift.*

*So a smile has no end,
When lips show a little bend.
For by grace are we saved,
For with a smile man is not depraved.*

*Remember to have a loving smile,
So mankind will not defile.
As the smile grows to give love all around,
The smile gives cause for us to abound.*

*Jesus Christ reeks with love,
For the smiles He gives to those above.
Laughter means joy and peace,
For God's love is with an open lip's crease.*

*For Christ is our Saviour and Lord,
For with the smile of love there is no shard.
With His love this sincere,
Man must realize Jesus' love is real.*

*So let us smile to show this cause,
For man's life has no pause.
Without the love of our smile's sublime,
Our smile would just turn into useless slime.*

*Let us grin, laugh or smile,
So our love will go the extra mile.
For with our loving smile comes our gown,
Or our upside down smile will turn into the dreadful frown.*

*Our life is too short,
For man to give his smile the snort.
The Spirit's guide has no guile,
If and when we live within our smile.*

*So, smile, **JESUS is here!**
Let us raise this big hallelujah cheer!
With many a smiles delight, I, which have no bite,
I give to you, my loving smile, this night.*

*With love,
Pastor Eddie*
